Invitation to Live Optometry CPD Event Tuesday 24 January 2017 at 6.30pm

We are pleased to invite you to the **first live CPD event for optometrists** in Sydney in 2017. Come along and see Dr Jay Yohendran, Dr Andrew Kaines, Dr Kwon Kang and Dr Dov Hersh speak about **various interesting cases and surgical techniques**, in the conference room at **Quest**.

Enjoy a fabulous dinner while our doctors are presenting. After dinner, we will head over to the adjoining **Chatswood Private Hospital**, where the **interactive** section of the evening will be held. Our doctors will be able to show you in theatre, in much greater detail, the intricacies of the surgical procedures that were discussed over dinner. You will have an opportunity to perform various procedures yourself! The final part of the evening, will be a bit of fun, to celebrate the festive season.

Topics:

Dr Jay Yohendran:

Live cataract surgery. Have you folded an Intra-Ocular Lens before?

Dr Andrew Kaines:

Intravitreal injections. Have you ever performed an intravitreal injection?

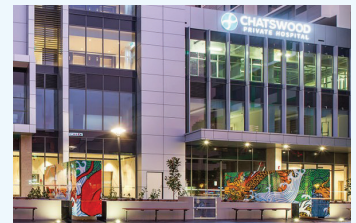

Dr Kwon Kang:

Vitrectomy. How does a vitrector work? What do you replace the vitreous with?

Dr Dov Hersh:

DCR. What kind of view do you get with an endoscope?

Have you performed nasolacrimal lavage?
